****KITCHEN WILL BE OPEN IF THERE IS VOLUNTEERS TO HELP****

The snowmobile club was established in 1969 and only had 10 miles of trails that existed. We have worked hard to grow our trail system to 59 miles. Without active volunteers we are in jeopardy of losing our trail system. If everyone could commit to volunteering during this winter season it would give all the members a chance to ride and enjoy the snowmobile season. Remember without our club trails access to food, lodging and gas will not be accessible. Unfortunately, we will have to drop trails if we do not have volunteers to help. We understand everyone is busy, however if everyone could commit a little bit of your time to volunteer this season. This will ensure our trails to remain open helping all the members to be able to ride and make family memories...
